EXPERIENCE

Associate Director of UX, Healthgrades (May 2019 - May 2021)

- Responsible for B2B product's UX strategy while managing a team of designers and contributing to multiple development teams
- Led team through post merger platform unification by developing a design system to provide a seamless user experience across 6 products
- Implemented resources for growth and development, including a template to track accomplishments and a design framework, to coach and empower team
- Conducted workshops to craft Design Principles to guide team's work and assist in making sound consistent design decisions
- Collaborated with Product Strategist to research and design a Help Center for all B2B products using Salesforce Experience Cloud

Product Design Lead, Healthgrades (Aug 2018 - May 2019)

- Defined UX strategy and design operations for HG CRM
- Improved product/engineer and design relationship by implementing processes around design work request, distribution of test findings and 'pre-groomings'
- Produced competitor analysis to share with stakeholders to evaluate future product and experience strategy
- Developed personas for HG CRM application by interviewing over 40 users

Senior UX Designer, Arrow Digital (Jul 2017 - Aug 2018)

- Maintained UX Designer responsibilities while executing senior level strategic projects including driving product initiatives and designing features spanning multiple teams
- Recruited 30 in-house engineers to participate in regularly occurring user testing sessions
- Defined UX strategy, research, personas, and designs for the R&D team as lead designer

UX Designer, Arrow Digital (Apr 2016 - Jul 2017)

- Validated features and enhancements through research in the form of user testing, competitive analysis, user interviews and surveys
- Facilitated event storming, story mapping and system modeling meetings with product team members and stakeholders
- Collaborated with agile team members from story requirements to development deliverables for features by creating wireframes, prototypes, low fidelity and high fidelity mockup

Interactive Designer, HomeFinder.com (Feb 2015 - Feb 2016)

- Created visual brand and assets for various custom projects, including national sweepstakes
- Partners with front-end developers and marketing team to execute web features and lead generation landing pages

Junior Designer, HomeFinder.com (Oct 2013- Feb 2015)

- Assisted and collaborated with Art Director to develop visual brand in both print and digital
- Designed, created, and tested HTML emails using design and development best practice

Design Intern, Brand Iron (Jul 2012- Jun 2013)
